An **ISO** 9001:2015 Certified Company

About Us:- Established in 2016 Nutri Science, Indore is manufacturing, wholesaling & Trading of AgroChemical, Plant Growth Promoter, formulated in house are safe for both surrounding environment & farmers. Company offers ISO 9001:2015 & 14001:2004 Certified solutions for the products. Botanical Extracts, Organic Fertilizers & Soil Conditioner formulated in a way to assure improved crop yield leading improvement in quality of life.

Our product range comprises of speciality products like Acaricides and Plant Growth Regulators supported by Insecticides, Fungicides, Herbicides and Weedicides. We have got various formulations consisting of granules, Wettable/ dusting powder, emulsifiable water soluble concentrates, capsule suspension, water dispersible granules, etc. which provides a great flexibility in application as per farmer's requirement.

Think Green Save Earth

BIO-STIMULANT

DEVA-DEVA

A World Class Imported Product

It is a highly effective general use dietary supplement to all crops. It contains Humic Acid Fulvic Acid, Folic Acid, along with various other humoids. Crop: Cotton, All Crop.
Function: Soil Conditioner, Water Retentioner, Promotes Adequate & Proportional Growth

Packing:- 100 ml, 250 ml 500 ml.

GOLD COIN

Plant Growth Promoter

The Natural Plant Growth Promoters improve the overall growth and health of the plants. Plant growth promoters increase quality of the yield. Wide range of Natural plant growth promoter/regulators, plant stimulators/activators and fruit color & sugar enhancers are available at BigHaat.

Packing:- 250 ml, 500 ml, 1 Ltr.

Ajooba

Essential Plant Food

It is an ixture of organic and protein & Becomes an effective compound with this. it Contains metallic proteins, and Enzyme with selected base mixture which results in Extraordinary growth gives Flowering & Fruiting in cotton, Soyabean. Paddy, Opuim, Groundnut, Wheat, Chillies, Vegetables, & all types of fruits & increase growth Stimulant

Packing:- 100 ml, 250 ml, 500 ml, 1 Ltr.

NUTRI FLOWER

Plant Growth Promoter

Benefits: 1. Quicker and higher percentage of germination
2. increased root mass.3. Higher resistance power against drought, frost.
4. Faster uptake of micro, macroelements. 5. Increases crop yield and quality.
6. Improves soil health, fertility moisture retention capacity, cation. exchange capacity.
7. Corrects CN ration,
CP ratio & CS ratio. 8. Corrects pH of soil, ideal for organic farming.

Packing:- 100 ml, 250 ml 500 ml 1Ltr.

BIO-STIMULANT

HUMA Sol

Plant Growth Promoter

This is a non-poisonous and non-hazardous product and hencerequires no special precautions while storage and spraying. Compatible with all types of insectides, fungicides and herbicides. Do not mix products while making spray solution.

Packing:- 500 ml, 1 Ltr.

BANDHAN

Wetting Agent

It is highly efficacious anionic sticking and spreading agent and specially formulated to cover large surface area. It is recommended for use with insecticides, fungicides for improving sticking and spreading quality.

Packing:- 250 ml, 500 ml, 1 Ltr.

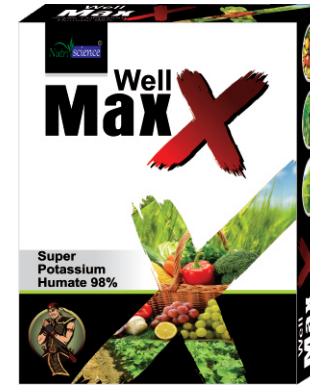

Bond-90

Silicon Based Spreader

It is a silicon based Wetting & Spreading agent which reduces the surface tension of water thus helping in spreading of spray molecules and also better absorption by the foliage. nutrients, insecticides, fungicides and herbicides helps uniform and better spread of spray solution on the leaf surface in the quickest possible time resulting in better use efficiency of the active ingredients involved.

Packing:- 50 ml, 100 ml, 250 ml 500 ml.

WellMaxx

Super Potassium Humate 98%

It is a powerful plant growth regulator & is recommended to increase the yield of crop.

Crop: Cotton, Chilli, Rice, Groundnut, Potato, Tomato, Grapes.

Applied On: Rapid Increase in growth and quality of produce

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

BIO-STIMULANT

MAXXIMO

Shiny Ball

Slow release of the nutrients which promote the maximum availability during the growth. The nutrients are available gradually over time. Helps to make roots active. Work with the natural plant growth processes. Can be used with other fertilizers like urea, DAP etc.

Packing:- 1 kg.

NUTRAZEN

Plant Booster

It is research based product combination containing Flowering Stimulant with naturally available vegetable protein. It is a plant in charge flowering stimulant and yield booster. It enhances the plant canopy and induces produced flowering and thereby increases the yield.

Packing:- 1 kg.

HUMASOL

Super Potassium F Humate 99% Flakes

Available in black and brown powder/crystals. These are easily dissolved in water, have good hard water-resisting property, have strong work ability and high effectiveness. These products can be used for all kinds of foliar fertilizer, special purpose fertilizer and drought resisting fertilizer. Available at cost effective prices. These are available with us in exact compositions and purity.

Packing:- 250 gm, 500 gm, 1 kg.

HUMASOL

Organic Humic+Amino+Seaweed Extract

Fertiliser and support the overall development of crops. For better utilization of chemical fertilizers & supports overall development, white root growth, shoot growth, soil fertility, increases chelation, increases porosity, helps in increase of chlorophyll content, for better utilization of chemical fertilizers & supports overall development.

Packing:- 10 kg.

INSECTICIDE

CLOTHER

Chlorpyrifos 20% EC

It is a Broad Spectrum Stomach and Contact action Insecticide.
Crop: Paddy, Gram, Cotton, Groundnut, Apple, Citrus
Applied On: Leaf Roller, Aphid, Termites, Hairy Caterpillar, Stem Bore, BPH, White Fly etc.

Packing:- 250 ml, 500 ml, 1 ltr.

CLOVEN SUPER

Chlorpyrifos 50% + Cypermethrin 5% EC

It is a broad spectrum insecticide.

Crop: Cotton

Applied On: Aphid, Jassids, Thrips, Pink Bollworm & white Fly

Packing:- 250 ml, 500 ml, 1 ltr.

PROSPECT SUPER

Profenofos 40% + Cypermethrin 4% Ec

It is a Broad Spectrum systemic insecticide with contact and stomach action.

Crop : Cotton

Applied On : Boll Worm Insects

Packing:- 250 ml, 500 ml, 1 ltr.

PROCAT

Profenophos 50% EC

It is a Stomach and Contact action insecticide.

Crop: Paddy.

Applied On: Green Leaf Hopper, Brown Plant Hopper

Packing:- 250 ml, 500 ml, 1 ltr.

INSECTICIDE

LAMBORTO

Lambda Cyhalothrin 4.9% CS

It is an insecticide in the form of capsule suspension.

Crop: Cotton, Paddy, Tomato, Okra, Brinjal

Applied On: Bollworm, Leaf Folder, Fruit Borer, Thrips

Packing:- 250 ml, 500 ml, 1 ltr.

ThaiLamp

Thiamethoxam 12.6%+ Lambda Cyhalothrin 9.5% ZC

It is a broad spectrum moderately systemic insecticide, toxic by contact and ingestion.

Crop: Cotton, Rice.

Applied On: Brown Plant Hoper, Green Leaf Hopper, White Backed Plant Hopper,

Packing:- 250 ml, 500 ml, 1 ltr.

NUTRIFEN

Bifenthrin 10% EC

A broad spectrum insecticide | miticide of the Synthetic pyrethroids group with contact and stomach action. The product is effective against a broad range of lepidopteran pests, sucking pests, mites and termites in various crops.

Packing:- 250 ml, 500 ml, 1 ltr.

KUNAL-25

Quinalphos 25% EC

It is a contact and stomach action insecticide

Crop : Paddy, Wheat, Red Gram, Chili, Mustard, Cotton

Applied On : Hispa, Pod Borer, Scales, Thrips, Brown Leaf Roller, Stem Borer.

Packing:- 250 ml, 500 ml, 1 ltr.

INSECTICIDE

NUTRIMIDA

Imidacloprid 17.8% SL

It is a Broad Spectrum Systemic and contact action insecticide.

Crop : Cotton, Sugarcane, Paddy, Okara, Sunflower.

Applied On : Aphid, White Fly, Jassid, Termite, Thrips

Packing:- 250 ml, 500 ml, 1 ltr.

MANTOS

Monocrotophos 36% SL

It is used to control a variety of sucking, chewing and boring insects and spider mites on cotton, sugarcane, peanuts, ornamentals, and tobacco.

Packing:- 250 ml, 500 ml, 1 ltr.

DRAIN

Emamectin 1.9% EC

It is Broad Spectrum, high efficacy and low toxicity type of insecticide cum acaricide.

Crop: Field Crop like Cotton, Sunflower, soybean Groundnuts, all Vegetables.

Applied On : All insects belong to Lepidoptera, Bitptara, Homeptara, Thysanoptera, mites insects.

Packing:- 100 ml, 250 ml, 500 ml.

STILLER-25

Cypermethrin 25% EC

It is a synthetic pyrethroid insecticide.

Crop: Cotton, Vegetables, etc.

Applied On: Bollworm, Jassid, Thrips, Shoot & Fruit Borer, etc.

Packing:- 250 ml, 500 ml, 1 ltr.

INSECTICIDE

DEADLIER

Emamecthin Benzoate 5% SG

It is a Biologically derived/ synthesized Insecticide acaricide having stomach action.

Crop: Cotton, Okra

Applied On: Bollworms, Fruits

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

THOR

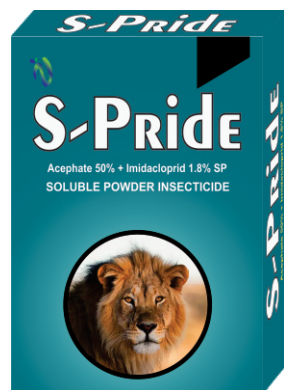

Thiamethoxam 25% WG

It is a Broad Spectrum Systemic seed treatment Insecticide with Contact and Stomach action

Crop: Paddy

Applied On: Stem borer, Leaf borer, BPH, Gall Midge insects, etc.

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

S-PRIDE

Acephate 50% + Imidacloprid 1.8% SP

Spectrum: Cotton-Aphid; Jassid; Thrips; Whiteflies; Bollworms, Paddy: Brown Plant Hopper, Green Leaf Hopper, Stem borer & Leaf folder

Compatibility: Compatible with most chemicals

Duration of effect: 10 days

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

NUTIACE

Acephate 75% SP

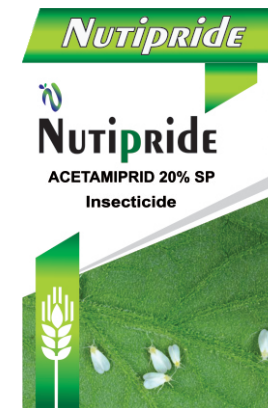

It is a Organophosphorus Broad Spectrum Systemic insecticide with ovicidal contact and stomach action.

Crop: Cotton, Sunflower, etc.

Applied On: Jassids, Bollworms, Aphid

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

INSECTICIDE

NUTIPRIDE

Acetamiprid 20% SP

It is Highly effective Broad Spectrum systemic insecticide.

Crop: Cotton, Chilli, and all Vegetables Crops.

Applied On: Aphid, White Fly, Jassids

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

NUTRICAR

Carbofuron 3% CG

It is a broad spectrum carbamate insecticide, nematocide and miticide having systemic action. It is used against a variety of insect pests, nematodes and mites damaging various crops. It is very effective against leaf roller, shoot and stem borer, aphid, jassid, thrips, gall midge. It is also effective on hoppers in paddy, cotton, sugarcane, maize, millets, brinjal and other vegetables.

Packing:- 1 kg, 3 kg, 5 kg.

SUPRIMO G.R.

Fipronil 0.3% G.R.

It is a Fipronil based phenyl pyrazole insecticide which is very effective for controlling stem borer and leaf folder in rice and termites and early shoot borer pests in sugarcane. Fipronil not only controls insect pests effectively but also shows plant growth enhancement effects like enhanced root growth, more number of productive tillers etc.

Packing:- 1 kg, 3 kg, 5 kg.

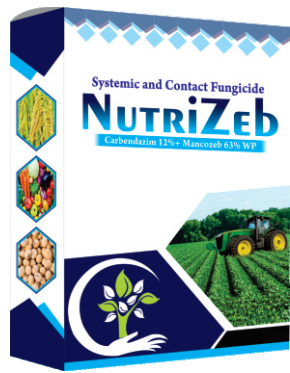

NUTRI CAPTURE

Cartap Hydrochloride 4% GR.

Cartap Hydrochloride 4% GR is used to control chewing & sucking insect pests of many crops including paddy, Vegetables. Advantages: Unique in mode of action and highly effective against both chewing and sucking pests. Systemic and contact in action. Highly effective at low concentration and can control almost all stages of insects.

Packing:- 1 kg, 3 kg, 5 kg.

FUNGICIDE

NUTRiZeb

Carbendazim 12% + Mancozeb 63% WP

It is a broad spectrum systemic and contact Fungicide with strong and curative action.

Crop: Paddy

Applied On: Blast of Paddy Crop

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

CAR-WA

Carbendazim 50% WP

Contact And Systemic Fungicide For Preventive Disease Control It is systemic fungicide with protective and curative action. belongs to benzimidazole group of fungicide. It is effective against a wide range of pathogenic fungi in various crops.

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

NUTRiMAN

Mancozeb 75% WP

It is a proactive nonsystemic Broad spectrum fungicide, It is used to control of many fungal diseases in a wide range of field crops, fruit, nuts, vegetables.

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

METALMAN

Metalaxyl 8% + Mancozeb 64% WP

Against diseases like Early Blight, Late Blight, Tikka, Downy Mildew, Brown And Black Rust, Etc Major Crops Paddy, Wheat, Vegetables (Chilly, Tomato, Potato etc) Horticultural crops (Grapes, Apple)

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

FUNGICIDE

NUTRi-SLF

Sulphur 80% WDG

It is a dry water dispersible non Systemic protective Fungicide with contact and vapour action.

Crop: Fruits, Vegetables, Cumin, Beet, Guar, etc.

Applied On: Powdery Mildew, etc.

Packing:- 1 kg, 3 kg, 5 kg.

NUTRi Tab

Tebuconazole 10%+Sulphur 65% WG

It is an effective fungicide with protective, creative and eradicated action. It controls powdery mildew, fruit rot diseases of Chilli and leaf spot, pod blight disease of Soybean.

Packing:- 100 gm, 250 gm, 500 gm, 1 kg.

NUTRiEXA+

Hexaconazole 5% SC

It belongs to triazole group of fungicide. It is highly systemic fungicide having protective and curative action. It is useful for controlling Powdery mildews, Rusts and Leaf spots in cereals, Oil seeds, horticultural and plantation crops and also for the effective control of Rice Sheath blight.

Packing:- 250 ml, 500 ml, 1 ltr.

PRO-25

Propiconazole 25% E.C.

It is a broad spectrum systemic disease control fungicide with protective & curative action.

Crop: Paddy, Wheat, Rice, Groundnut, Soybean, etc.

Applied On: Karnal Bunt, Sheath Blight, Leaf Spot, Rust.

Packing:- 250 ml, 500 ml, 1 ltr.

HERBICIDE

MAHIR-71

Ammonium Salt of Glyphosate 71% SG

It is a non-selective, post emergente systemic herbicide.

Crop: Tea & Non Crop Areas

Applied On: Annual, Perennial, Broad Leaf & Grasses Weeds

Packing:- 100 gm.

PARAMETER

Parquat Dichloride 24% SL

It is a non selective, contact, post emergent herbicide.

Crop: Cotton, Potato, Cotton, Rubber, Wheat, Rice, Apple, Grapes

Applied On: Non Selective, Contact, Post Emergent Herbicide

Packing:- 500 ml, 1 ltr.

PRI-OR

Pretilachlor 50% EC

is a pre-emergence herbicide for control of grasses, sedges and some broad leaf weeds in transplanted Rice. It contains 'Pretilachlor'. It provides excellent selectivity on all known varieties of Rice. No adverse effect like stunting or yellowing of crop, rather gives greening effect to the crop.

Packing:- 250 ml, 500 ml, 1 ltr.

PANTER-38

Pendimethalin 38.7% CS

Just after sowing of crop and before irrigation this should be sprayed on soil as carpet application Applicable crops: Soyabean, Cotton, Chilli, Groundnut

Packing:- 250 ml, 500 ml, 1 ltr.

HERBICIDE

Gaylord

Glyphosate 41% SL

It is a non-selective, post emergent herbicide which is effective against annual and perennial grasses.

Crop: Tea & Non Crop Areas etc.

Applied On: Annual, Perennial, Broad Leaf & Grasses.

Packing:- 500 ml, 1 ltr.

NUTRICARE

2,4-D Amine Salt 58% SL

It is a selective herbicide.

Crop: Maize, Wheat, Sorghum, Potato, Non Crop Area.

Applied On: Cyperus Iria, Ameranthus Spp, etc.

Packing:- 500 ml, 1 ltr.

METSOL

Metsulfuron Methyl 20% Wp

It is a modern weed killer enters the leaves and roots in the wheat crop of weeds and destroy weeds. The influence of the pears in 10 to 15 days After sprinkling of a weeds stop water and nutrition from the ground. The is safe for wheat because it does not damage plants and grains like 2-4-D. use after 20-30 days of crop is more beneficial

for crop. Crops : Paddy, Sugarcane, Wheat

Packing:- 250 gm, 500 gm.

NUTRIMAGE

Imazethyper 10% SL

Foliar application For controlling most weeds in a leguminous crop Must not be applied with any chemical expert sticking agent Frequency of Repeat application of weedicide not allowd Depends on pest incidence or severity of disease.

Applicable crops: Soyabean, Groundnut

Packing:- 250 ml, 500 ml, 1 ltr.

FERTILIZER

AMRITASHA

Multi Micronutrient Fertilizer

This formulation consists all plant micronutrients It contains Zinc, Magnesium, Copper, Manganese, Iron, Molybdenum and Boron in balanced form to suit various crop requirements It makes crops to develop resistance to pests & diseases, improves overall health, growth & development of crops Improves quality and quantity of yield

Packing:- 500 ml, 1 Ltr.

NUTRISURE

NPK 19:19:19

Instruction: Apply immediately after dilution. The effect of product will be reduced if uses in higher temperature and before rain. Widely spray on leaves underside of leaves, stacks and buds. Must store in cool and dark place, avoid direct sunlight. As use of product is beyond our control we arenot responsible for any hazard and we guarantee only uniform quality of the product. Small trial is recommended before regular application. Spraying is advice during coolest hour of the day preferable before 10 am in the morning and after 4 pm in the evening. Do not mix these Pesticides and Fungicides.

Packing:- 1 kg, 25 kg.

Packing:- 1 kg, 25 kg.

NUTRISURE

DOT Boron 20%

Boron 20% is purest form of Boron available for use in Agriculture. It is 100% water soluble and can be used in foliar spray. ... B-20 can be applied in all crops, but highly beneficial for cotton, Potato, wheat, Oilseeds, Onion, apple, mango, lemon, cabbage, cauliflower, tomato, brinjal, beans etc. horticultural crops.

Packing:- 100 gm, 250 gm, 500 gm.

FERTILIZER

NUTRISURE

Copper Sulphate 24%

It Helps in the Growth & Production of Vitamin A & Various Enzymes It Enhances Oil Contents in Mentha, Legumes, Rapeseed, Mustard & Peanuts Copper Sulphate helps in the Eradication of Fungal Diseases & Correcting Copper Deficiency in the Soil

Packing:- 100 gm, 250 gm, 500 gm.

NUTRISURE

Magnesium Sulphate 9.6%

Prompt Plus Magnesium Sulphate is part of the chlorophyll in all green plants and essential for Photosynthesis. It also helps activate many plant enzymes needed for growth. Improves utilization and mobility of phosphorus. Increases iron utilization in plants. Influences earlyness and uniformity of maturity.

Packing:- 1 kg, 5 kg, 25 kg.

NUTRISURE

Ferrous Sulphate 19%

Recommendations : Akshat FERROUS is soil application fertilizer for Ferrous requirement of the crop. Apply 10Kg/acre during rapid growth and nutritional stress conditions. For Optimum result, repeat application through the growing season.

Packing:- 1 kg, 5 kg, 25 kg.

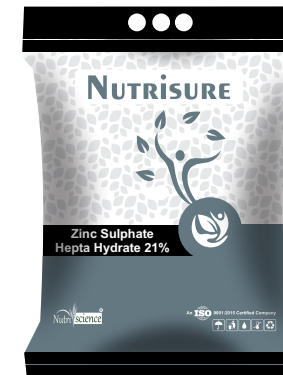

NUTRISURE

Zinc Sulphate Mono Hydrate Zinc content -33% Min, Sulphur 15%

Parazinc is essential for the transformation of carbohydrates participates in Chlorophyll production and also activates many enzymes, which regulate plant growth. It increases the metabolic rate of plants.

Packing:- 1 kg, 5 kg, 25 kg.

FERTILIZER

NUTRISURE

Zinc Sulphate Hepta Hydrate 21%

Parazinc is essential for the transformation of carbohydrates, participates in Chlorophyll production and also activates many enzymes, which regulate plant growth. It increases the metabolic rate of plants. Recommendation:- Foliar Application 3-4gm/1/lt. of water

Packing:- 5 kg, 25 kg.

NUTRISURE

Calcium Nitrate (N15.5, Cal 18.8)

Instruction: Apply immediately after dilution. The effect of product will be reduced if used in higher temperature and before rain. Widely spray on leaves underside of leaves, stalks and buds. Must store in cool and dark place, avoid direct sunlight. As use of product is beyond our control we are not responsible for any hazard and we guarantee only uniform quality of the product. Small trial is recommended before regular application. Spraying is advised during coolest hour of the day preferable before 10 am in the morning and after 4 pm in the evening. Do not mix these fertilizer with any Pesticides and Fungicides.

Packing:- 1 kg, 5 kg, 25 kg.

AMRITASHA

Mix Micronutrient Fertilizer

This is the only and much needed one for plants and crops. With our unique formula each of the element present in our fertilizer plays a pivotal role targeting roots, foliage, flowers, trees, shrubs, houseplants & fruits/vegetable generically & doesn't limit itself to a particular plant or tree

Packing:- 1 kg, 5 kg, 25 kg.

NUTRI GROW +

Soil Application Kit

1. Improves the salty soil. Makes soil porous & increases water holding capacity of soil. Helps in development of roots. Makes available micro nutrients like Calcium, Magnesium & Sulphur required for the development of the crop. Maintains pH of the soil. Retains moisture for the longer period. Increases resistance power against fungal diseases.

Packing:- 20 kg.
